## BS Information Technology – Network Administration

geraldnazpandaan1@gmail.com | 09703373083 | [LinkedIn](#) | [GitHub](#) | Kalayaan, Laguna

### CAREER OBJECTIVE

Cum Laude BS Information Technology graduate majoring in Network Administration, with hands-on experience designing and deploying a live government web platform and building campus-wide systems. Seeking a Network Engineer, Systems Administrator, or IT Support role where I can apply expertise in network configuration, web systems development, and IT governance to deliver reliable and secure digital infrastructure. Skilled in AI-assisted development workflows.

### PROJECTS

#### PiyuGuide – Cross-Platform Inquiry & Counseling System

2025 – 2026

Capstone Project | Laguna State Polytechnic University | Lead Developer | Live: [piyuguide.live](#)

- Developed a cross-platform Inquiry and Counseling System serving multiple campuses of a State University College (SUC), replacing manual coordination with a centralized digital platform.
- Built multi-office and multi-campus support, enabling different departments and host campuses to manage their own inquiries, counseling records, and referrals through a unified portal.

#### Siniloan Digital Governance Platform

March 2026 – June 2026

OJT Project | Municipality of Siniloan, Laguna – SICTO | Live: [siniloandgp.com](#)

- Designed and deployed a production-grade municipal digital governance platform now actively used by the Municipality of Siniloan, Laguna for day-to-day government HR and administrative operations.
- Developed core modules covering municipal HR management, travel order request processing, secure employee records, and digital governance operations.

#### TagTrack – RFID Lost and Found System

2024 – 2025

Final Project | Laguna State Polytechnic University | [GitHub Repository](#)

- Developed a university-wide Lost and Found tracking system integrated with RFID technology, enabling automated item tagging, scanning, and status updates across campus facilities.

### EDUCATION

#### BS Information Technology – Major in Network Administration

June 2026

- Laguna State Polytechnic University – Host campus
- Graduated with Latin Honors Cum Laude
- Scholarship: Recipient, CHED Tulong Dunong Program (TDP)

### INTERNSHIP / ON-THE-JOB TRAINING

#### IT Intern / Web Systems Developer

Municipality of Siniloan, Laguna | SICTO (Siniloan Information & Communication Technology Office)

- Collaborated directly with municipal staff and SICTO personnel to gather system requirements, conduct iterative testing, and resolve issues prior to public go-live.
- Administered the web server infrastructure on Digital Ocean, managed MongoDB database backups, and ensured continuous system availability.
